LUVIEL
TCHN FEE SCHEDULES AND CONTRACTING TOOL

TCHN has been working with Luviel Health to offer its members easy internet-based access to fee schedule information for the Managed Care Plans and Networks that the providers participate with through our organization. As of October 8, 2007, you can access this web-based software to do the following:

-Display the current fee schedules for the managed care plans that you have chosen to participate in through TCHN.

-Compare average reimbursement for each fee schedule to current Medicare reimbursement.

-Access standard utilization for your specialty by CPT code. (Please note, this utilization is not specific to your practice.)

-Allow you to input your practice's unique annual utilization should it differ from the typical specialty utilization provided. In addition, you can download this same information to your computer to conduct your own analysis.

It is recommended that you save your fee schedules quarterly as we have many plans that update their vaccines quarterly. These include Aetna, Cigna and Coventry. At a minimum, you should save the fees yearly as we have reimbursements that update yearly.
