## Family Camp Eligibility Criteria

Marcus Autism Center and Camp Twin Lakes have partnered to offer families of children with autism a weekend camp experience.

### Who should come to camp?

- We are excited to host children with autism within the age range of 5-18 who are ready to stay overnight in a novel environment and access typical camp activities, along with their family members.
- We ask that parents are prepared to supervise their children at all times. Volunteers do not provide supervision.
- Since children have the support of their family members, we are happy to host campers who may not meet summer camp eligibility.
- Given the number of families at camp, we cannot host children with aggression directed to others or elopement (running away). Staff primarily consists of Camp Twin Lakes counselors and community volunteers who are responsible for running activities, not managing behavior.
- We ask that you limit family members to immediate family members living in the same household

The price for camp is \$175 per family, for up to 5 people, with an additional per person fee for any additional person over the age of 5. The cost covers all activities, lodging, and food for the weekend (there are no additional expenses).
